

# Permanent redirectable QR-code route

BIZ-003 / REV A / 2026.09.01

Print a stable URL you control, then change its destination later. The QR image can remain physically unchanged.

|                |                               |
|----------------|-------------------------------|
| STATUS         | Proven                        |
| CLASSIFICATION | BIZ                           |
| MATERIAL       | WEB / CREATIVE                |
| DISPOSITION    | PUBLIC / PROVEN               |
| CATEGORY       | Website / Business / Creative |
| RECORD TYPE    | reference                     |

## GOAL

Run the first test described in this guide and record the result for permanent redirectable qr-code route.

## SOURCE STATE

New reference guidance; not a recovered test result

## METHOD / STEPS

1. Choose a short path such as <https://u225x.com/go> and keep it reserved permanently.
2. Create a server or hosting redirect to the current destination. A 302 or 307 is a practical choice when that destination is expected to change; avoid long-lived cached permanent redirects for this use.
3. Generate the QR from the stable route, not the temporary destination.
4. Change the destination in a test, then scan the same printed QR again to verify the new route works.

## THINGS TO WATCH FOR

Do not build an unrestricted user-supplied redirect target. If using Cloudflare redirect rules, the relevant DNS record must be proxied as their documentation requires. Keep the domain renewed.

---

## FIRST TEST / WHAT TO RECORD

The same printed code should reach the new destination without a replacement image.

---

## RESULT / WHERE THIS STANDS

The same printed code should reach the new destination without a replacement image.

---

## TROUBLESHOOTING

- Do not build an unrestricted user-supplied redirect target. If using Cloudflare redirect rules, the relevant DNS record must be proxied as their documentation requires. Keep the domain renewed.

---

## SPECIFICATION

|          |                               |
|----------|-------------------------------|
| CATEGORY | Website / Business / Creative |
|----------|-------------------------------|

|      |           |
|------|-----------|
| TYPE | REFERENCE |
|------|-----------|

|                 |                   |
|-----------------|-------------------|
| PUBLIC BOUNDARY | Safe summary only |
|-----------------|-------------------|

|            |                          |
|------------|--------------------------|
| NEXT CHECK | Test the public workflow |
|------------|--------------------------|

---

## DEVELOPMENT HISTORY

2026.09.01 / Rev A

Imported as an independent manifest record; public copy keeps uncertainty visible.
