

QR code for u225x.com

BIZ-004 / REV A / 2026.09.01

A QR sticker is a machine-readable link first. Preserve a clean, high-contrast code before adding decoration outside it.

STATUS	Proven
CLASSIFICATION	BIZ
MATERIAL	WEB / CREATIVE
DISPOSITION	PUBLIC / PROVEN
CATEGORY	Website / Business / Creative
RECORD TYPE	reference

GOAL

Run the first test described in this guide and record the result for qr code for u225x.com.

SOURCE STATE

New reference guidance; not a recovered test result

METHOD / STEPS

1. Encode the verified HTTPS address or BIZ-003 stable route with a real QR encoder.
2. Use dark modules on a light background and preserve a clear quiet zone at least four modules wide on every side.
3. Export a sharp SVG or adequately sized PNG. Keep the U225X badge and website text outside the code rather than covering central modules.
4. Print at final size, laminate if intended and scan with multiple phones at the actual curve and viewing distance.

THINGS TO WATCH FOR

An AI-drawn QR pattern is not a valid encoding workflow. Shaped modules, logos, glare and cup curvature can reduce scan reliability. Higher error correction is not permission to obscure arbitrary areas.

FIRST TEST / WHAT TO RECORD

Verify the decoded URL and successful scan after printing and finishing, not just from a screen.

RESULT / WHERE THIS STANDS

Verify the decoded URL and successful scan after printing and finishing, not just from a screen.

TROUBLESHOOTING

- An AI-drawn QR pattern is not a valid encoding workflow. Shaped modules, logos, glare and cup curvature can reduce scan reliability. Higher error correction is not permission to obscure arbitrary areas.

SPECIFICATION

CATEGORY	Website / Business / Creative
----------	-------------------------------

TYPE	REFERENCE
