GOAL

Run the first test described in this guide and record the result for prototype and printed-part service.

SOURCE STATE

New reference guidance; not a recovered test result

METHOD / STEPS

1. Request the model, quantity, dimensions, environment, load, finish and required delivery date.
2. Inspect geometry for thin walls, unsupported spans, fit tolerances and assembly requirements.
3. Choose a material and orientation, then quote preparation, machine time, material, finishing and expected iteration separately.
4. Print a fit sample for uncertain interfaces, approve the result and deliver with material and care notes.

THINGS TO WATCH FOR

Do not market a decorative print as a certified structural, food-contact or heat-safe part. A slicer time estimate excludes setup, reprints and finishing.

FIRST TEST / WHAT TO RECORD

The part meets the agreed dimensions and use conditions, and any prototype limitations are documented.

RESULT / WHERE THIS STANDS

The part meets the agreed dimensions and use conditions, and any prototype limitations are documented.

TROUBLESHOOTING

- Do not market a decorative print as a certified structural, food-contact or heat-safe part. A slicer time estimate excludes setup, reprints and finishing.
