CONVERSATION / QUESTION AND CONTEXT

What if I added a 4 inch golden spinner to my aquarium

CONVERSATION / EXTRACTED GUIDANCE

- *1. Goldfish + crappie already = odd mix
- Goldfish are messy, coldwater, heavy waste producers
- Crappie are predatory and can stress or eat smaller fish
- Adding another active fish can increase stress fast
- *2. Size matters
- Outcompete slower goldfish for food
- Nip fins if semi-aggressive
- Get attacked if the crappie sees it as competition
