Best Hairspray for 3d printer adhesive

CONVERSATION / EXTRACTED GUIDANCE

1. Aqua Net Extra Super Hold Unscented
2. Widely considered the best overall choice for 3D printing. Strong hold, easy to spray evenly, and works well with PLA, PETG, ABS on glass or PEI beds. [embedded media omitted]
3. Suave Max Hold / Suave Extreme Hold
4. Good alternative with a strong adhesive layer, especially when you're having trouble sticking the first layer. Often sold in multipacks. [embedded media omitted]
5. FRAGFRE (Fragrance-Free) Hair Finishing Spray
6. Best if you want less odor in your workspace (unscented). Still sticky enough for bed adhesion. [embedded media omitted]
7. Rave 5X Freeze Hairspray
8. A budget-friendly option that still provides noticeable adhesion for prints. [embedded media omitted]
