CONVERSATION / QUESTION AND CONTEXT

i have a samsung galaxy s24 ultra. I am wanting to use it to scan 3d objects. what are some realistic options i have

CONVERSATION / EXTRACTED GUIDANCE

1. *Best apps:
2. KIRI Engine - Probably my first recommendation for you. Good mesh quality, exports for 3D printing, and works well on Android. [embedded media omitted]
3. RealityScan - Free from Epic Games. Very beginner-friendly and gives good guidance while capturing. [embedded media omitted]
4. Polycam - Excellent quality but more features are behind a subscription. [embedded media omitted]
5. Scaniverse - Fast and processes on-device, though Android support and features have evolved over time. [embedded media omitted]
6. Fishing lures
7. Castings
8. Figurines
