TECHNICAL NOTES

Conversation-specific knowledge extracted from the pizza lunchables safety discussion.

CONVERSATION / QUESTION AND CONTEXT

I've had pizza Lunchables in my car for 2 hours its about 75 degrees outside

CONVERSATION / EXTRACTED GUIDANCE

1. *Rule of thumb: perishable foods (meat, cheese) shouldn't stay above 40°F for more than 2 hours (or 1 hour if over 90°F).
2. Cheese + pepperoni/ham = perishable
3. If the car was in sun or felt warm/hot inside, it's safer to toss them
4. If the car stayed shaded/cool and they still feel chilled, risk is lower, but it's still right at the safety cutoff
5. *If you're unsure, don't risk it - especially for kids. Food poisoning from dairy/meat isn't worth a few bucks.
6. Weird smell
7. Slimy meat
8. Puffy package
