CLASSIFICATION	SYS
MATERIAL	CHAT EXPORT / BUILD & TOOLS
DISPOSITION	PUBLIC CONVERSATION EXCERPTS / REDACTED
CATEGORY	Build & Tools
RECORD TYPE	build-thread

TECHNICAL NOTES

Conversation-specific knowledge extracted from the truly wireless 3d scanners discussion.

CONVERSATION / QUESTION AND CONTEXT

Are there any truly wireless 3d scanners

CONVERSATION / EXTRACTED GUIDANCE

1. *For your use, I'd probably narrow it to two choices: if you want to spend ~\$300-600, use a wireless scanner that works with your S24 Ultra. If you're willing to spend ~\$1,400, MIRACO is the big jump because you can literally pick it up, walk around a part, scan it, mesh it, and then bring the mode...
2. *1. Creality Raptor X - best overall if wireless matters
3. *2. Revopoint MIRACO Plus - best truly standalone experience
4. *3. Regular MIRACO - cheaper standalone choice
5. *Physical part -> wireless scan -> mesh -> DeziqnWorks Mesh Modeler -> editable SOLIDWORKS sketches/features -> modify part -> print/machine/fabricate
6. *Part -> scan -> STL/PLY -> DeziqnWorks Mesh Modeler -> SOLIDWORKS
7. *Scanner -> PLY/OBJ -> MeshLab
8. clean/align/crop/repair the scan

SPECIFICATION

SOURCE	Supplied ChatGPT export
CATEGORY	Build & Tools
CONVERSATION	16 user turns / 16 assistant turns
ATTACHMENTS	21 references detected
PUBLIC DETAIL	Extracted knowledge + excerpts

DEVELOPMENT HISTORY

2026.08.09 / EXPORT-04

Matched to the supplied export; key guidance is surfaced separately and the raw transcript remains unpublished.
