TECHNICAL NOTES

Conversation-specific knowledge extracted from the worm fishing in morning discussion.

CONVERSATION / QUESTION AND CONTEXT

Will worms work in the morning

CONVERSATION / EXTRACTED GUIDANCE

1. Fish are feeding after the cooler night
2. Water near shore warms first -> draws baitfish + panfish
3. After that cold snap, fish get a little sluggish -> worms are an easy meal
4. Catfish - they'll still take them, especially smaller channels
5. Crappie / Bluegill - honestly your best bet in the morning
6. White bass (if they're around) - sometimes hit worms, but not ideal bait
7. Light/medium rod
8. Small hook (#4-#2 for panfish, bigger for cats)
