GOAL

Run the first test described in this guide and record the result for carbondale city lake.

SOURCE STATE

New reference guidance; not a recovered test result

PREPARATION / NOTES

Tactics are starting approaches, not a live bite report. Check current access, posted restrictions, species limits, bait rules, weather and water advisories for the exact water before a trip.

EQUIPMENT

- Rod and reel matched to the target species
- Hooks, line, sinkers, and landing tools
- Notebook or phone field log

MATERIALS

- Bait or lure identified in the next field log

METHOD / STEPS

1. Confirm the exact city-lake entrance, permitted hours and any local requirements with the managing authority.
2. Start at an accessible point, vegetation edge or visible cover; look for bait movement and surface activity.
3. Try a worm under a float for a broad species search, or a bottom presentation for catfish. Change depth before changing several other variables.
4. Cover two or three distinct habitats and keep notes on clarity, wind and bites.
