GOAL

Run the first test described in this guide and record the result for chromebook family link and school-before-games controls.

SOURCE STATE

New reference guidance; not a recovered test result

EQUIPMENT

- Basic inspection tools
- Service information for the exact model
- Notebook or photo record

METHOD / STEPS

1. Confirm the child is signed into the supervised Google account and distinguish a family-owned device from a school-managed one.
2. In Family Link, block or limit entertainment apps and sites while keeping required school resources accessible; check which scheduling features apply to that Chromebook.
3. Use a clear daily checklist and have the adult grant game access or time after reviewing the work.
4. Test the controls from the child's actual account, including browser games, guest access and any other permitted sign-in paths.

THINGS TO WATCH FOR

Family Link does not automatically know homework is complete. School administrative policies may override or differ from household controls. A feature available on Android may not work identically on ChromeOS.

FIRST TEST / WHAT TO RECORD

Required school work opens and the intended entertainment remains unavailable until the chosen parent action.

RESULT / WHERE THIS STANDS

Required school work opens and the intended entertainment remains unavailable until the chosen parent action.

TROUBLESHOOTING

- Family Link does not automatically know homework is complete. School administrative policies may override or differ from household controls. A feature available on Android may not work identically on ChromeOS.

SAFETY / LIMITATIONS

- Use qualified judgment and current manufacturer or code guidance for safety-critical work.
