

Engineering Unwarranted S24 Ultra Case

OBJ-0071 / REV A / 2026.08.29

The Samsung Galaxy S24 Ultra case is a physical identity study: raised and recessed details, a deliberate serial-plate language, and QR geometry imported as part of the model. It is a design and manufacturability record, not yet a production promise; readability and first-layer behavior still need to be checked on the printed piece.

STATUS	UNDER TEST
CLASSIFICATION	OBJ
MATERIAL	TPU / DATA MATRIX
DISPOSITION	CONCEPT / NEEDS TEST

TECHNICAL NOTES

An industrial-style phone-case concept with embedded lettering, revision data, and a QR path into the workbench.

SPECIFICATION

DEVICE	Samsung Galaxy S24 Ultra
GRAPHIC DEPTH	0.6 mm concept value
QR PATH	u225x.com / redirectable
VALIDATION	Physical scan test pending

DEVELOPMENT HISTORY

2026.08.29 / Rev A

Established the case identity and QR-linked landing concept.
