

Browser Business Card Designer

SYS-0021 / REV A / 2026.08.18

This built precedent lets a user edit text, fonts, colors, weight, alignment, image placement and opacity, then print or save/load the design as JSON. It is a useful foundation for future product customizers and small shop utilities on u225x.com.

STATUS	STABLE
CLASSIFICATION	SYS
MATERIAL	HTML / JSON
DISPOSITION	BUILT PRECEDENT

TECHNICAL NOTES

A browser-based print designer for editable text, images, alignment, layouts, and repeat-to-eight output.

SPECIFICATION

EDITING	Text / font / color / alignment
IMAGES	Position / opacity
OUTPUT	Print / preview / eight-up
SAVE FORMAT	JSON

DEVELOPMENT HISTORY

2026.08.18 / Rev A

Recorded the working feature set as a future public tool pattern.

RELEASED MATERIAL / SOURCE LINKS

SYS-0021_feature-map.txt

NOTES / 2 KB

Awaiting public upload.
